There's a soft, pretentious mountain Listen to the light of the trees And all the flowers in the minor And the birds fly happily We're together once again my love I need you back oh baby baby

I can't explain just why we lost it from the start. Living without you girl, you only break my heart.

I can feel it! I can hold it!
I can bend it, I can shape it, I can mould it
I can kill it! I can taste it!
I can spank it! Beat it, masturbate it!

I been looking for day glow
Always hearing the same old
City boy won't you spank thru
I can make it do things
you wouldn't think it ever could

I can feel it! I can hold it!...

I been looking for day glow...

I've been looking for day glow Always hearing the same old Sticky beredom with a book I can make it do things

You wouldn't think it ever You wouldn't think it ever could
