

Find Me

Nizlopi

Come like a dream love
Come on and breathe love
Like my mother
Comb my hair now
Come and awake love

Come like the summer
Come on and make love
Like a rush in the blood
Like my first love
Like this thirst love

And find me
Sign me up
Come and align me
Come and remind me
Come on and find me
You are an angel
sent from above yeah
Come and remind me
Come an align me
Come on and find me

Confusions beating
A hurricane in my brain
All this searching out for love
Is making me insane

So I like surrender
Up to the will of God
See me searching
Skipping, singing,
Wandering off

And I'm searching way off far
To where you are, to where you are
Somewhere deep inside her chest
Is where you are, and I'll find you if you will...
