

# Shut Your Mouth

No Angels

[Verse 1:]

Just because I left your crazy ass behind me  
Doesn't mean you have to go and do me grimy  
Spreading rumors spreading lies is your profession  
Like your momma didn't give you no affection

You know you did it  
But I ain't with it  
Don't try to spin it  
Just admit it an quit, you're finished

[Chorus:]

I wanna shut your mouth, for the lies that you spread on me  
Burn your house, and I hope that you're still asleep  
Cut you out, for the b!tch that you have to be  
Shut your mouth, before you make me shut your mouth

[Verse 2:]

You keep on talkin' tryin to ruin my reputation  
To see me hurting is your only motivation  
Stop pretending all the time that you're the victim  
But you can't, you need to feed on your addiction

You know you did it  
But I ain't with it  
Don't try to spin it  
Just admit it an quit, you're finished

[Chorus 2x:]

I wanna shut your mouth, for the lies that you spread on me  
Burn your house, and I hope that you're still asleep  
Cut you out, for the b!tch that you have to be  
Shut your mouth, before you make me shut your mouth

[Bridge:]

I can see  
I can see that you still want me  
It's a fact  
Oh, it's a fact that you're not over me  
It's your fault  
It's your fault that you're lonely  
It's just so sad to see  
Why don't you let it be

You know you did it  
But I ain't with it  
Don't try to spin it  
Just admit it an quit, you're finished

[Chorus 2x:]

I wanna shut your mouth, for the lies that you spread on me

Burn your house, and I hope that you're still asleep  
Cut you out, for the b!tch that you have to be  
Shut your mouth, before you make me shut your mouth
