

## Only Baby

No-Man

Love, love me.  
Love me clean,  
Love me new.  
Love, love me.  
Understand I live for you

When the storm is spoken,  
The silence is broken.  
Won't you be my only baby?  
When the doubt is over  
And I move in closer,  
Move for me, my only baby.

Love, love me.  
Love me fresh,  
Love me free.  
Love, love me.  
Take this heat and die for me.

When the storm is spoken,  
The silence is broken.  
Won't you be my only baby?  
When the doubt is over  
And I move in closer,  
Move for me, my only baby.

Breathe for me.  
Be for me  
Only.

When the storm is spoken,  
The silence is broken.  
Won't you be my only baby?  
When the doubt is over  
And I move in closer,  
Move for me, my only baby.

Help me through  
Help me through  
Help me through  
Help me through  
These bitter days.  
Only baby.
