

Set Your Anger On Fire

Nomy

So you want me to need you
You want me to see you
you want me to like you
The things I can not do

I wanna be the stone falling down on you
I wanna be your anger, your fire,

I can not help you
I dont want to
Get a way (2x)

so burn little girl you will twist and turn
And you'll scream and you'll cry cause I can not lie
I wont fall back on you I would break your heart in two

So burn pretty anger

But Now, I Cant help I'm falling I'll give you my pain
So take this black soul I offer It's shattered like rain
A guilt that is in me that you can not see
I'll brake you my savior my victim you'll be

I can not help you
I dont want to
Get a way (2x)

So burn pretty anger

so burn little girl you will twist and turn
And you'll scream and you'll cry cause I can not lie
I wont fall back on you I would break your heart in two (2x)

So burn pretty anger

I can not help you
I dont want to
Get a way (2x)

So burn pretty anger
