

Straight ahead

Nomy

We're not here to live this way
Take this time to realize
How we live is not okay

Every year is just the same
I can't remember yesterday
I'm in a movie with one frame

Take time to fall
Don't run just crawl
Fuck that just go

Take this chains away
I'm gonna leave you here with your dick in your hands
I'm gonna walk my way, walk away

Take this pain away
I'm gonna leave you here with your dick in your hands
I'm gonna walk my way, walk away

In the past you don't exist
What you've done is what you've done
If your memory insist

Straight ahead you see the end
The end of everything you hate
The only thing you understand

Take time to fall
Don't run just crawl
Fuck that just go

Take this chains away
I'm gonna leave you here with your dick in your hands
I'm gonna walk my way, walk away

Take this pain away
I'm gonna leave you here with your dick in your hands
I'm gonna walk my way, walk away

You're sitting on my shoulder
Your words are like a poison
I feel i'm getting older
You're sitting on my shoulder

This time i'm shutting you out
I'm going straight ahead now
This time i can't hear your shout
This time i'm shutting you out

You're sitting on my shoulder
Your words are like a poison
I feel i'm getting older
This time i'm going to

You're sitting on my shoulder
Your words are like a poison

I feel i'm getting older
This time i'm going to

Take this chains away
I'm gonna leave you here with your dick in your hands
I'm gonna walk my way, walk away

Take this pain away
I'm gonna leave you here with your dick in your hands
I'm gonna walk my way, walk away

Take this chains away
I'm gonna leave you here with your dick in your hands
I'm gonna walk my way, walk away

Take this pain away
I'm gonna leave you here with your dick in your hands
I'm gonna walk my way, walk away

You're sitting on my shoulder
Your words are like a poison
I feel i'm getting older
You're sitting on my shoulder

This time i'm shutting you out
I'm going straight ahead now
This time i can't hear your shout
This time i'm shutting you out
