

Dangerous Waters

Nonpoint

What you hear is not a test, alarms are going off around you
I see the flashing lights from the help thats rushing to save y
our life
what you feel inside your chest, is the struggle that wants to
drown you
you need to realize, before your eyes, close and stay closed fo
r good

Youre in dangerous waters, sinking to the bottom
Fighting with whats let inside, until you make it out alive

Protect your heart from the things that try, to weaken, hurt an
d harm you
See that friend of yours, is really no friend at all,
Every time you swallow them, they turn around and swallow, your
life, and your limbs, your will and your very soul

Your in dangerous waters, sinking to the bottom
fighting with whats let inside, Until you make it out alive
