

# Looking Away

Nonpoint

Try and I try and I try to look away  
It doesn't mean that it'll happen anyway

I watch as they all look away  
They don't have the stomach for this  
The image that's burned in my brain  
Won't let me ignore my good conscience

They try to hide our suffering  
Controlling lies, the lies they sing  
It's right in front of me

Try and I try and I try to look away  
The fighting inside is the reason that I stay  
Try and I try and I try to look away  
It doesn't mean that it'll happen anyway

The people that live in the streets  
The children struggling just to eat  
Our families sent overseas  
And claiming it's necessary, oh!

They try to hide our suffering  
Controlling lies, the lies they sing  
It's right in front of me

Try and I try and I try to look away  
The fighting inside is the reason that I stay  
Try and I try and I try to look away  
It doesn't mean that it'll happen anyway

Program your mind

I don't wanna be  
I don't wanna be among the sheep  
I don't wanna follow in my sleep  
I don't wanna be left for dead in the street

I don't wanna throw  
I don't wanna throw away my soul  
I don't wanna do the things they know  
And it's gonna make me into an animal

Try and I try and I try to look away  
The fighting inside is the reason that I stay  
Try and I try and I try to look away  
It doesn't mean that it'll happen anyway

Try and I try and I try  
Look away  
I give but I gave up the fight  
I create  
I live and I live of a lie  
I'm tired of saying it so I have to look away
