

Noises

Number One Gun

Oh do you remember me?
What are you doing here?
I've seen you in the past few weeks
Do you want a part of me?
It's the same same thing I don't wanna guess
Oh how do you feel?
Is it a waste of time trying to figure out?
Figure out what's fake and what is real

And I'm just asking if you're just asking
Are you talking to me?
'Cause I can't hear a thing but noises
Sweet noises

Simpler watch all of us
And all of us will watch our tongues
And all these thoughts just wither to nothing
The right words, the right time will speak
It's the same same thing I don't wanna guess
Is it a waste of time trying to figure out

And I'm just asking if you're just asking
Are you talking to me?
'Cause I can't hear a thing but noises
Sweet noises

And I'm just asking if you're just asking
Are you talking to me?
'Cause I can't hear a thing but noises
Sweet noises

It's your day
It's your time
I'm looking for you
And I won't lie

And I'm just asking if you're just asking
It's your day
Are you talking to me?
'Cause I can't hear a thing but noises
And I'm just asking if you're just asking
Sweet noises
