

## On & On

Number One Gun

Could you be my answer?  
Could you tell me that I am the perfect one for you?  
You're the perfect one for me

Could you be too faithful?  
Could you show me anymore?  
It's the perfect thing to do  
It's the perfect thing for me

On and on I see you  
The life that comes together  
To see that we're forever  
On and on I see you  
The times we've spent together  
The times that last forever

And now we will find our way  
It's the way that we'll find this day  
And I know you belong to me

Could you lead me on?
