

The People

Number One Gun

People count on "nothing isn't worth it"
Enslave your bodies for money to buy freedom

The people are angry with you and each other
I will remember when you said you'd save me

You disappoint your fathers and your mothers
With your faith not lasting I wonder what you'll wonder
And soon you'll sing badabadabadada
And soon you'll sing badabadabadada

The people are angry with you and each other
But I will remember when you said you'd save me
Badabadabadada

The people are angry with you and each other
