

Step By Step

Ocean Colour Scene

We're gonna take it step by step
Little by little, that's all
And a though it may be a long time
If you and I'm strong, that's all

Winter froze us like a blue Monday
So you and I we battened our defenses overnight
Come the spring and I'll be on the road then
I just hope that you'll have got a hold on feeling all right

You and I should sail out on the water
And you and I should do just what we ought to
Some time soon
Come the autumn we'll be getting home by
The light is thin that I'll be holding you by
Not too soon

Winter chills us like a bloody Sunday
But you and I have loosened our defenses overnight
Come the spring and I'll be don't know where then
But I know that you'll have had a load of feeling all right
