Empire

Of Monsters and Men

Feel the ocean as it breathes Shivering teeth See the mountains where they meet Smothering me As the wind fends off the waves I count down the days Heavy stones Fear no weather I find comfort in the sound And the shape of the heart How it echoes through the chest From under the ground As the hills turn into holes I fill them with gold Heavy stones Fear no weather And from the rain Comes a river running wild that will create And empire for you Illuminate There's a river running wild that will create An empire for you An empire for two An empire for you An empire for two And I paint your body black I hide in your hair And you're staring back at me Like I wasn't there As our bodies become stills We welcome the fear Heavy stones Fear no weather And from the rain Comes a river running wild that will create And empire for you Illuminate There's a river running wild that will create An empire for you An empire for two An empire for you An empire for two And from the rain Comes a river running wild that will create And empire for you Illuminate There's a river running wild that will create An empire for you
