

## Bird In An Aeroplane

Oh Land

Feathered to the tips  
Light weight but strong  
I can only go this long  
Iron steel and smoke  
Your power is endless  
I'm only flesh and bones

Every machine has a promise to break  
Stuck in a dream that I cannot escape

I pray for hurricanes  
You take off when I want to stay  
Out of steam I'm off terrain  
I'm a bird in an aeroplane

Crossing continents  
We're going in loops  
Tell me will we ever land  
Longing to return  
To somewhere I've known something quite familiar ooh

Every machine has a promise to break  
Stuck in a dream that I cannot escape

I pray for hurricanes  
You take off when I want to stay  
Out of steam I'm off terrain  
I'm a bird in an aeroplane

We're flying over mountains higher every day  
I'm trying to keep up  
Trying to match your game  
While you are gaining height I'm fading into grey  
And away...

I pray for hurricanes  
You take off when I want to stay  
Out of steam I'm off terrain  
I'm a bird in an aeroplane

I pray for hurricanes  
You take off when I want to stay  
Out of steam I'm off terrain  
I'm a bird in an aeroplane
