When the Lights Go Out

Oingo Boingo

When the lights go out Everybody has fun When the lights go out Everybody runs to a safe place When the lights go out Everybody's afraid When the lights go out Everybody starts to pray Starts to pray

Monsters & Madmen All come alive When the dead start walking There's no place to hide There's no place to hide

Hey--Let's turn the night into day Let's start a fire in an alley way Let's all go crazy by & by And let's all pray to the cat's eye

No one can be trusted, when the lights go out People act real crazy, people start to shout People huddle together, try and hide their fear People party down by they ain't goin' nowhere They ain't goin' nowhere

Gonna run outside What's there to see Just one big shadow there to comfort me There to comfort me . . . there to comfort me

Just common folks like you and me Turn into mobs that get so crazy Prowl the streets like cats Out for the hunt Breaking all the windows just because it's fun Just because it's fun, just because it's fun
