

I Betray My Friends

OMD

Now it's the way, all the time
Life's not fair, it's just melted away
Sorrow to hell, all the time
And this song is dead
How do they stand to be with you?

Just, just, just the way
Just the way, just the way to be
Just the way, just the way you treat me all the time
Just the way, just the way all the time

You've never seen me
You've never hoped, too fair to say
You just can't explain yourself
You can't explain yourself
I can't explain this pain...
