## **Neon Lights**

Neon lights Shimmering neon lights And at the fall of night The city's made of light Neon lights Shimmering neon lights And at the fall of night The city's made of light I dream of you With me tonight We're all alone Under the neon lights And walking home You're by my side The neon lights Are in our eyes Neon lights Shimmering neon lights And at the fall of night The city's made of light Neon lights Shimmering neon lights And at the fall of night

The city's made of light
