

Our System

OMD

Across the Universe
Our system is expanding
Crystal velvet void
Stained by the disease

Empty words and deeds
Pleading to the ether
Perfect wires and steal
Pierced the cold abyss

Across the Universe
We're reaching out to Heaven
Only to preceive
No one there at all

Every word we reach
Perfect, pure and clear
Every word we preach
Spoken to deceive

Across the Universe
We're broken and we're bleeding
Pointing to the stars
Stolen by degree

Taken to the edge
Beautiful serene
Save us from ourselves
Delivered from this end
