I didn't want to see you Not when you're at your best And talk about the weather I couldn't pass the test

So many things I do, so many things I say Give you the wrong idea
So many things I do, so many things I say Just make a fool of me
Then you turn away
Then you turn away

I couldn't help but call you I waited almost all the week I didn't want to hear you Laughing aloud at me

So many things I do, so many things I say Give you the wrong idea
So many things I do, so many things I say Just make a fool of me
Then you turn away
Then you turn away

There's people saying that it's obvious That I'm wasting my time on you And people saying that it's obvious That I've fallen in love, it's not true

So many things I do, so many things I say Give you the wrong idea
So many things I do, so many things I say Just make a fool of me
Then you turn away
Then you turn away
