

Walking on the Milky Way

OMD

When I was only seventeen
My head was full of brilliant dreams
My heart would call and I would gladly go
At twenty one the world was mine
And I was yours and you're divine
And nothing else would matter to us so
I don't believe in destiny
I don't believe in love
I don't believe that anything will ever be enough...

Man you should have seen us
On the way to Venus
Walking on the milky way
It was quite a day hey hey...
Walking on the big stuff
Acting like we're real tough
Baby we were on our way
So what do you say hey hey.

As time goes by reality
Destroys your hope and dignity
There's nothing left but shadows on the wall
But just remember who you are
And where you've been you've come so far
And never ever let them see you fall
I don't believe in miracles
I don't believe in truth
I don't believe that anything can recreate your youth

Man you should have seen us
On the way to Venus
Walking on the milky way
It was quite a day hey hey...
Walking on the big stuff
Acting like we're real tough
Baby we were on our way
So what do you say hey hey

Man you should have seen us
On the way to Venus
Walking on the milky way
It was quite a day hey hey...
Walking on the big stuff
Acting like we're real tough
Baby we were on our way
So what do you say hey hey

Man it's you to seen us this way we runaway with you [x3]
