

## Auguries Gone

Omnium Gatherum

They say the good man has gone bad  
And nothing's god comes to those who wait  
But they own our world and I'm not part of it  
Are those devils gonna have their way  
We've been stranger than the night  
But force and furor helped us through  
"Babe, you got real wolfen eyes  
Would you come and take me down"  
Down Down Down  
Down like this  
So now I'm sober and quiet like a thief  
(Don't need an augur to save the day)  
Well, I've seen all Nietzsche's blood dry  
The things I hear are they what I want  
We have no right to what's left inside  
Damn right we'll get it back

"...like a falling rose the red wine bleeds lovelorn tears vanish  
in bereavement...  
.....shattered echoes of yesterday I heard them fade away li  
ke a...."  
(In early 1997)

Wading across the tulip fields in an old park, In remembrance  
And in solemn moments such as this I've.....  
"En ma enää aja virvatulta"

They say I got wasted, But my hands are clean  
I got long hair and empty pockets, No money at all  
But this wastrel's got a free spirit and he'll walk with you  
My eyes may have suffered but they're still full of X.X.X.X

It lives in my heart and always will  
It lives in my heart and always will
