

First law is to be
Second has eyes to see
Third one is filled with mystery

How many do you need
And what is necessary
Call upon the first and the last
Everyone around the golden

Four roads from four corners
Five it defines a man
Six somehow has everyone talking

How many do you need
And what is necessary
Call upon the first and the last
Everyone around the golden

Can you let go
Of all the trouble in the world
Let it go

How many do you need
And what is necessary
Call upon the first and the last
Everyone around the golden

Can you let go
Of all the trouble in the world
Let it go
