

# Never Let You Go

## One Less Reason

I can feel you in my bones  
The waves crash down, I'm still alone  
It seems ever body found their way back home  
And I can't even find the god damn road, that I've been walking on  
My head is weak, my fear is strong  
One day these words are gonna come out wrong  
One day my worst is gonna come out

If you think I can live without you well,  
If you think that I would ever do you wrong  
Well baby I can live without you but  
I needed you to know  
I needed you to know

Whoa uh oh, whoa oh,  
Never let you go, never let you go, never let you  
Whoa uh oh, whoa oh,  
Never let you go, never let you go, never let you  
Whoa uh oh, whoa oh,  
Never let you go, never let you go, never let you

I'm gonna hold you close and I'll wish you well  
You know this time is gonna hurt like hell  
Goodbye

You were someone that lost control  
So quick with facts but always wrong  
We told you love would keep you strong  
Held you captive for years and kept you waiting so long  
To prove that you were right  
You're gonna take your stand, for once in your life  
You pray that these words were gonna come out right  
You pray the truth would finally come out

If you think I can live without you well,  
If you think that I would ever do you wrong  
Well baby I can live without you but  
I needed you to know  
I needed you to know

Whoa uh oh, whoa uh oh,  
Never let you go, never let you go, never let you  
Whoa uh oh, whoa uh oh,  
Never let you go, never let you go, never let you  
Whoa uh oh, whoa uh oh,  
Never let you go, never let you go, never let you

I'm gonna hold you close and I'll wish you well  
You know this time is gonna hurt like hell

And everything that you are is coming right now  
You said you're closer to love then you'd like to be  
You're gonna live your life, oh so, far from faded, loss is jaded  
Having a heart is overrated

They want you to whisper softly, I need you to  
Shout it out!

Whoa uh oh, whoa uh oh,  
Never let you go, never let you go, never let you  
Whoa uh oh, whoa uh oh,  
Never let you go, never let you go, never let you  
Whoa uh oh, whoa uh oh,  
Never let you go, never let you go, never let you

I'm gonna hold you close and I'll wish you well  
You know this time is gonna hurt like hell  
Goodbye!
