

## Never Let This Go

ONE OK ROCK

As I look into your eyes and see you standing there Tell me something You're never gonna let this go

Step into your heart but you don't take it Please don't leave it And you're never gonna let this go

All I know Is that you want to break it I just want to say Is that your feeling? You know what you are? Tell me why Did you turn your back right to me You drive me crazy!!

We just carry on our relation that we can't keep any more But we have to make it for us 'cuz I'm never gonna make it If I see your mind without the wall of emotion that I tore I could get everything back It's back to me just like that!

As I look into your face and see you smiling there Show me anything You're never gonna let this go

Maybe I was messed You think maybe I was wrong No way to change it But you're never gonna let this go

All I know Is that you want to break it I just want to say Is that your feeling? You know what you are? Tell me why Did you turn your back right to me You drive me crazy!!

We just carry on our relation that we can't keep any more But we have to make it for us 'cuz I'm never gonna make it If I see your mind without the wall of emotion that I tore I could get everything back It's back to me just like that!

All I know Is that you don't want to break it Please tell me why Did you turn your back right to me You drive me crazy

We just carry on our relation that we can't keep any more But we have to make it for us 'cuz I'm never gonna make it If I see your mind without the wall of emotion that I tore I could get everything back This time, we will let this go!!
