

'Member when we met?  
We fell in love on a Sunday  
Yeah I'll never forget  
The way that you spelled my name  
It took me a year  
To find a new attraction  
My hope and my fear  
Is human interaction

Yeah I just want my love automatic  
If artificial love makes sense  
I just want your love, I'm an addict  
Artificial intelligence

Artificial  
Artificial

Remember when we met?  
I got obsessed on a Monday  
And I'll never forget  
I felt such a cliché  
I'm wanting to be there  
Dreaming of your soft skin  
With no emotion  
You can really make my head spin

Yeah I just want my love automatic  
If artificial love makes sense  
I just want your love, I'm an addict  
Artificial intelligence  
Yeah I just want my love automatic  
If artificial love makes sense  
I just want your love, I'm an addict  
Artificial intelligence

Artificial  
Artificial

I just want my love automatic  
If artificial love makes sense  
I just want your love, I'm an addict  
Artificial intelligence

You're so too real  
Love the way you love me  
Artificial intelligence  
Way you love me  
Love the way you love me  
It's so clear  
You make everything inside me feel  
Just automatic hurt  
Bring me back tonight  
Cause you're intelligent, so real  
So real
