

Dream Here (With Me)

Oomph!

You know as well as me,
That I can't get to sleep at night,
Cause every dream i have,
Just seems to be of you

Night after night I wait for you,
To come and be with me.
Now take my hand and
Follow me under the moon

You're only one small step away,
And then there's no turning back.

Dream here with me tonight
Sleep here with me tonight

True liberation is the gateway
To your peace of mind,
Free will is also a responsibility

I know that you can't stand,
The noise of life so easily,
Silence awaits us hand in hand,
To set us free,

Dream here with me tonight
Sleep here with me tonight
Dream here with me tonight
Fly here with me tonight

Oh come on - come on,
just a little - just a little closer,
Oh come on - come on,
just a little - just a little closer

Oh come on - come on,
Just a little - just a little closer,
Oh come on - come on,
Just a little - just a little closer

Oh come on - come on,
Just a little - just a little closer,
Oh come on - come on,
Just a little - just a little closer

Oh come on - come on,
Just a little - just a little closer,
Oh come on - come on,
Just a little - just a little closer

You're only one small step away
And there's no turning back

Dream here with me tonight
Sleep here with me tonight
Dream here with me tonight
Fly here with me tonight

Dream here with me
Fly here with me
...tonight
