

Land Ahead

Oomph!

Afloat on the black stormy sea
Through the dark
Her waves are devouring me
Like a shark
I battle against the flood
I savour my own sweet blood

Land ahead!

You are the land I see (Land ahead!)
My port of call (Land ahead!)
My light house, rescue me
And please don't let me drown before I reach your shore (Land a head!)

The storm blew my ship onto course
Through the dark
I laugh because I know that you're close
Still so far
I swallow the oceans spray
I smell you not far away

Land ahead!

You are the land I see (Land ahead!)
My port of call (Land ahead!)
My light house, rescue me
And please don't let me drown before I reach your shore (Land a head!)

Land ahead!

You are the land I see (Land ahead!)
My port of call (Land ahead!)
My light house, rescue me
And please don't let me drown before I reach your shore (Land a head!)

You are the land I see (Land ahead!)
My port of call (Land ahead!)
My light house, rescue me
And please don't let me drown before I reach your shore (Land a head!)
