

War

Oomph!

Dust in the sky - another bullet for the head of a lie
Dust in the sky - another bullet for the head of a lie

Where is the sun? It is so far away
The sun is gone - only you gotta stay
Don't mind if their words are true
Just do what they tell you to
Your will is gone - it is so far away
Their will be done - you've got nothing to say
You would resist if you only could see
But there's too much fucking dust on your T

War - you're just a victim of war
War - you're just a victim of war

Dust in your eye - and now the bullet's in the head of the lie
Dust in your eye - and now the bullet's in the head of the lie

Where is your pride? It is so far away
There's only night and you still have to stay
Don't mind if their story's true
Just do what they want you to
Where is your God? It is so far away
There was a lot - now there's nothing to pray
You would believe if you only could see
But there's too much fucking dust on your T

War - you're just a victim of war
War - you're just a victim of war

Don't open your eyes - don't care about lies
Just shut your mouth - you're just a victim of war
Keep holding your gun - keep holding your tongue
Just shut your brain - you're just a victim of war

Don't care about pain - don't care about shame
Just shut your mind - you're just a victim of war
Keep trying to sleep - keep counting the sheep
Just shut 'em down - you're just a victim of war

Go! Fight! War!
