

## Seven

Orange 9mm

Forget what I said and why I said it  
I don't think you ever wanted to know  
You wanna make an excuse on your own  
Rather decide who you could blame it on

I get the picture you like me to see  
Whatever you can so you can get your piece  
I'll live and die but I will never believe  
I stayed so long and that I let my whole body bleed

What's f\*\*king wrong with your head?  
What's f\*\*king wrong with your head?

I bet you swear you never did it  
But I gotta tell you somethin' while we're alone  
Hide your lies but lies make burns  
I've got a scar so now I've got a concern

You ain't a human, you're more like a disease  
Some of the sickest shit I've ever seen  
I'll live and die but I will never believe  
I stayed so long and that I let my whole body bleed

What's f\*\*king wrong with your head?  
What's f\*\*king wrong with your head?

Forget what I said and why I said it  
I don't think you ever wanted to know  
You wanna make an excuse on your own  
Rather decide who you could blame it on

I get the picture you like me to see  
Whatever you can so you can get your piece  
I'll live and die but I will never believe  
I stayed so long and that I let my whole body bleed

What's f\*\*king wrong with your head?  
You've got it on too tight, too tight  
What's f\*\*king wrong with your head?  
You've got it on too tight, too tight

What's f\*\*king wrong with your head?  
You've got it on too tight, too tight  
What's f\*\*king wrong with your head?  
You've got it on too tight, too tight
