

## Dark Horse

## Other Lives

Oh the rise and come in full  
there you will find out  
what lies within you  
Yes you've grown old  
but I'm listening as we go  
Where you are is where you were before  
Reminds me where I'm going

We're bringing down the dark horse  
bringing down the dark horse  
bringing down the dark horse  
We're bringing down the dark horse

Oh the lies they come and go  
Whether they're made up  
No fire was in you  
Yes you've grown old  
but I'm listening as we go  
to find out more of where you were before  
Reminds me where we're going

We're bringing down the dark horse  
bringing down the dark horse  
bringing down the dark horse  
We're bringing down the dark horse
