

## Selfrule

## Oxymoron

Ruling class, we don't need you.  
All governments out, don't need no leader.  
We had a lot of systems, they all failed.  
All warlords have been wrecked by their own wargames.

Get up, get up, need no rules.  
To degrade me as a fool.  
I know best what I decide to choose.  
Sod it, sod it, what they say.  
I can't believe it anyway.  
You know best what's really good for you.

All parties promise a brighter future.  
Don't let them plant you on illusions.  
There's no future if they do remain strong.  
Your rule, selfrule, that's the way, come on!

Anarchy - Selfrule, can't you see it's up to you!
