

Old L.a. Tonight

Ozzy Osbourne

1. Look into the future
Look into my eyes and tell me
Everything's all right
Tell me where we're going
I'm so afraid 'cos I don't know whats going on with my life.

But it'll be all right tonight
Will it be all right to night?
Are we doin' all right, in old LA Tonight

2. Sitting by the ocean
Mapping out my plans of action,
Baby they include you.
I wish you'd send a message
Maybe I'm just better off not knowing who knew.

But I'll be all right tonight
I'm gonna be all right tonight
Are we doing all right, in old LA tonight?

- R: Those summer nights when I look in your eyes
I'm falling to peices, peices
Out of my mind and I'll never know why
I'm falling to peices peices

Who could imagine such a thing could happen to you?
It's gonna be allright, in old LA...

- R: Those summer nights...

It's gonna be all right, in old LA to night.
