Pac Div

Let loose
Put everything on a shelf
Let loose
I got my Hennessey and I see you got your grey goose and if the
y're hating we don't care what they do
Cause you're sexy and you're rocking
You're sexy and I am watching
You're sexy girl you're rocking
You're sexy and I am watching

Baby take a day off
Get yourself a backrub
Say bye to your manager
Say hi to your bathtub
Working all these long days
You forgot to ask of
Couple ton of pay you can't even get your task of
Day time shit got you working to the bone
Just to find yourself doing more work when you're home
Love just relax leave that work alone turn on the stereo
Work it to the song

I do my thing like ding dong ditch
Please don't trip
I know you ain't my girl
But we don't snitch
You know what happens next after 3 more zips that remmy turns y
ou up...
Slow down
We can kick it on your off day
But we will never come back what will your boss say
It's off the roof and shake them pictures out the hall way roll
ing up swisha's got you smoking like em all day

Where are my girls at
Where are my dimes at
You bad enough to keep a working man side tracked
You had a hard week
And you wanna hit the club and party some hard beats
And I ain't made at you shout out to anklets and neck tattoos
Pretty feet hair smelling like pedale shampoo saving up so you
can party in cancoon and send a bunch of necked pictures from t
he bathroom
That's alright you know I love that shit you take the whole wee
k off and you have fun with it, spontaneous, outrageous, a purs
e full of credit cards with the payments up
