You claim I don't know you, but I know you well I read in those ash eyes we've been through hell I've walked with the weakest just to feel strong You've given your body just to belong

Let's burn together Let's burn together

This pain will never end These scars will never mend

I taste your sorrow and you taste my pain Drawn to each other for every stain Licking the layers of soot from your skin Your tears work my crust to let yourself in

Touching you harder Touching you harder now

As we walk through the ashes
I whisper your name
A taste of pain to cling to
As we walk through the ashes
You whisper my name
Who's the one with the sickest mind...
now?

This pain will never end
Our scars will never mend
Cleansing sweat
We are just using each other
Too depraved to stay alive
But too young to die
And we hurt
Thus we hurt

Scrubbing it harder
Too late to back out now
Scrubbing it even harder
As these two broken barren desolate disordered words collide

As we walk through the ashes
I whisper your name
A taste of pain to cling to
As we walk through the ashes
You whisper my name
Who's the one with the sickest mind...
now?

This pain will never end These scars will never mend Damn this dirty bed Damn this dirty head
