

## Eleven

### Pain Of Salvation

I run my calm on fumes  
I run my calm on fumes  
I've let you have your way around  
But I'm warning you  
I'm warning you  
You push me just that one more time  
And I'm done with you  
Oh I'm done with you  
Down to the bone

I go with the wild  
You're down to the bone  
I go with the wild  
Eleven  
Eleven

I run my calm on fumes  
I run my calm on fumes  
I've made my peace with cut and bruise  
A long time ago  
Used to be so small  
But know I've listened to your last excuse  
See I'm stronger now  
So much stronger now  
All muscle and bone

I go with the wild  
All muscle and bone  
I go with the wild  
Eleven  
Eleven  
Eleven  
I go with the wild  
You're down to the bone

[Instrumental break]

Eleven  
Down to the bone  
Eleven  
Muscle and bone  
Eleven  
I go with the wild...  
Eleven  
You're down to my bone  
Eleven  
I go with the wild
