

Healing Now

Pain Of Salvation

Heal me now
Remove these old scars from my soul
Heal me now
Unhinge this dry skin from my bones
And even though I can't forget the many times I've cried
And even though I can't forgive the many ways I've died
I am healing now
And I still kick the dust from this road
And I'm still alive
Just a little less so
Than before

Heal me now
And wash these old tracks from my road
Heal me now
This prodigy walked himself old

And I'm healing now
And I'm trying to find my way home
And i'm still alive
And I just thought that you should know
That perhaps I'll cry
And perhaps I will die
But for now I'm still alive
Just a little less so than before
Just a little less so than before
Just a little less so than before
Just a little less so
Than before
