Casual Affair

Panic! at the Disco

Hey, a casual affair That could go anywhere And only for tonight

Take any moment, any time A lover on the left A sinner on the right

Just lay in the atmosphere A casual affair (Hush, hush, don't say a word) Lay in the atmosphere A casual affair, whoa!

Break involuntary ties A secret so the spies Could never find us out

Stay for as long as you have time So the mess that we'll become Leaves something to talk about

Just lay in the atmosphere A casual affair (Hush, hush don't say a word) Lay in the atmosphere A casual affair, whoa!

I did it, I did it, I did it, I did it... I did it again I did it, I did it, I did it, I did it... I did it again I did it, I did it, I did it, I did it... I did it again I did it, I did it, I did it, I did it... I did it again

Just lay in the atmosphere A casual affair (Hush, hush don't say a word) Lay in the atmosphere A casual affair, whoa!
