

Square One

Parachute

I'm a white flag waving
When there's no fight left to win
In the desert waiting
For the tide to bring me in

When love goes,
nobody wants to say it did.
I realize, baby, there's no

No square one,
Just the lines in the sand.
No morning,
Just the sun going down.
From now on,
I'm just a face in the crowd
You're never gonna see again
We're never gonna get back baby

We were fading-
Trying to light a flame that we put out
We were landing
A plane that never left the ground
We were looking for a sign
That this ship was going down
while we were treading water, baby

No square one,
Just the lines in the sand.
No morning,
Just the sun going down.
From now on,
I'm just a face in the crowd.
You're never gonna see again
We're never gonna get back baby

No square one,
Just a shape in the clouds
No memories,
Just a picture you found
From now on,
I'm just a face in the crowd
You're never gonna see again
We're never gonna get back baby

I need your love
Oh, I need your love
But I can't give this up
Yeah, cuz I need your love
Oh, I need your love.

No square one,
Just the lines in the sand.
No morning,
Just the sun going down.
From now on,
I'm just a face in the crowd.
You're never gonna see it again

We're never gonna get back, baby.
