

Lullaby

Paradise Fears

Late night, phone calls
Bags packed, so long
Night drives, long flight
Nothing good about goodbye, bye

By the time I'm leaving I'll be wishing I could stay
I'll be thinking 'bout you every day a different state
Mile after mile you know I'm always on the road
But I won't let you go

I'll stay up all night, staring at the sky,
You're somewhere on the other side
If you're sleeping alone tonight, let me be your lullaby.
Girl, I've got stars in my eyes,
Cause you look better by my side.
If you're sleeping alone tonight, let me be your lullaby.

Hush now, speak slow
Stay close, don't go
Two hearts, one night,
Wish we didn't have to say goodbye.

By the time I'm leaving I'll be wishing I could stay
I'll be thinking 'bout you every day a different state
Mile after mile you know I'm always on the road
But I won't let you go

I'll stay up all night, staring at the sky
You're somewhere on the other side
If you're sleeping alone tonight, let me be your lullaby
Girl, I've got stars in my eyes
Cause you look better by my side
If you're sleeping alone tonight, let me be your lullaby

Let me be your lullaby, let me be your lullaby

A different night, a different day
Pretty soon it's all the same,
Being without you.

I'll stay up all night, staring at the sky
You're somewhere on the other side
If you're sleeping alone tonight, let me be your lullaby
Girl, I've got stars in my eyes
Cause you look better by my side
If you're sleeping alone tonight, let me be your lullaby

Girl, I've got stars in my eyes
Cause you look better by my side
If you're sleeping alone tonight, let me be your lullaby

Let me be your lullaby, let me be your lullaby.
