## **Paradise Lost**

For our saviour could not deny All born the same
All born the same
You won't hear the truth

I can feel it, close your eyes
I still see...
You invent the proof
I can feel it, close your eyes
I still see...
You won't hear the truth

Born a failure

Born a failure
Could not deny
All born the same
All born the same
You won't hear the truth

I can feel it, close your eyes I still see...
You invent the proof
I can feel it, close your eyes
I still see...
You won't hear the truth

For our saviour could not deny You won't hear the truth

I can feel it, close your eyes I still see...
You invent the proof
I can feel it, close your eyes
I still see...
You won't hear the truth
