

# This Circle

Paramore

Take this time to realize  
That you always shut your eyes  
In the midst of trial  
And everything is always right  
(and I think that it's time)  
this battle must be won  
(but you pushed it aside)  
Pushed it aside  
Pretend that it's gone

This circle never ends  
And it's time you  
Just face it, don't pretend  
That it's over  
This circle never ends  
And it's time you  
Just face it, don't pretend  
That it's over

Take this time to realize  
That you always force a smile  
In the midst of trial  
And everything is always right  
(and I think that it's time)  
This battle must be won  
(but you pushed it aside)  
Pushed it aside  
Pretend that it's gone

This circle never ends  
And it's time you  
Just face it, don't pretend  
That it's over  
This circle never ends  
And it's time you  
Just face it, don't pretend  
That it's over

And it never ends...  
It never ends...  
And it never ends...  
(and it never ends)  
No, it never ends

this circle never ends  
and it's time you  
just face it, don't pretend  
that it's over  
this circle never ends  
and it's time you  
just face it, don't pretend  
that It's over  
It's over
