

How High The Moon

Patti Austin

Somewhere there's music
How faint the tune
Somewhere there's Heaven
How high the moon

There is no moon above
When love is far away too
Till it comes true
That you love me as I love you

Somewhere, yeah, there's Heaven
It's where you are
Somewhere there's music
How near, how far?

The darkest night would shine
If you would come to me soon
Until you will, how still my heart
How high the moon

Somewhere, yeah, there's music
It's where you are
Somewhere there's Heaven
How near, how far?

The darkest night would shine
If you would come to me too
Till it comes true
That you love me as I love you

Somewhere, yeah, there's Heaven
It's where you are
Somewhere there's music
How near, how far?

The darkest night would shine
If you would come to me soon
Until you will, how still my heart
How high the moon

'How High The Moon' is the name of the song
'How High The Moon' though the words may be wrong
We're singin' it because you asked for it
So we're swingin' it just for you

How high the moon, does it touch the stars?
How high the moon, does it reach up to Mars?
Though the words may be wrong to this song
You ask me how high, high, high, high, high is the moon

Though the words may be wrong to this song
We're askin' how high, high, high
Hear your song now, 'How High The Moon'
