In My Life

Patti Austin

Although music is sweet But the song incomplete Now in my life, Boy in my life Something is missing

It's the truth, yes it's true Still there's no me and you Here in my life Boy in my life Something is missing

In my life there ain't no melody oh no
In my life there ain't no harmony
To let me sing a song
All I need is a cue when I'm waiting for you
Boy in my life
You are the melody
Coz in my life
You are the song

Baby, in my life You are the song You are my melody To me baby, in my life You are my song
