

Tip Of My Tongue

Paul Carrack

It felt so good when she told me
I need somebody just to hold me, tonight
Now what could I say
I closed the door now behind me
She dimmed the light
That's when I should have mentioned
It just ain't right

Every thought was in my head
But the words remained unsaid
It was on the tip of my tongue

I tried to raise my resistance
I couldn't fight her insistence
Two rights still make it wrong
I guess that she found my weakness
I just wasn't strong
I shouldn't' ever have been there
I should have been long gone

Well my mind was in one place
It was written on my face
It was on the tip of my tongue

Every thought was in my head
But the words remained unsaid
It was on the tip of my tongue

I guess I should have known better
I should have told her when I met her
Two rights still make a wrong
It's easy to point the finger
But I'm not ashamed
It's just the laws of convention
Says I'm to blame

Every thought was in my head
But the words remained unsaid
It was on the tip of my tongue
