

# You Give Me Something

Paul Carrack

You give me Somethin' I can depend upon  
Just like the Sun after the rain has gone

We're living in unusual times  
The picture's changing everyday  
It's hard to know which way to turn  
There's a minefield whichever way  
I see people runnin' everywhere now  
All gettin' nowhere fast  
I'm so glad I have something to believe in  
Our love is built to last

You give me Somethin' I can depend upon  
Just like the Sun after the rain has gone

So many times you've saved my life  
I don't count 'em anymore  
But I remember everyone  
And I'm just glad you're not keepin' score  
I feel like I'm guided by an angel  
And I know just what it's worth  
I never wonder if the grass is any greener  
My heaven's here on earth

You give me Somethin' I can depend upon  
Something so deep I know I can't go wrong

I don't need to worry, you're  
Everything I need  
And I know my satisfaction's guaranteed

You give me Somethin' I can depend upon  
Just like the Sun after the rain has gone

You give me Somethin' I can depend upon  
Something so deep I know where I belong
