

# Before The Old Man Died

Paul Kelly

I used to walk in shadows  
I stayed out of the sun  
I used to sort informtaion  
and I used to pass it on

Before the old man died  
Before we came alive  
Before the old man died

I used to follow orders  
Did my duty like a son  
But I fell in love with whispers  
And I turned them into songs

Before the old man died  
Before we came alive  
Before the old man died

For the way he ruined our mother  
Not enough blood can run  
We had plans me and my brother  
Every day I cleaned the gun

Before the old man died  
Before we came alive  
Before the old man died  
Before we came alive
