

## Want You Back

Paul Kelly

Friends have all come round and they're drinking  
I'm inside the sound of glasses clinking  
The worst are all inspired  
The best they're all tongue-tied  
They see too many sides oh babe  
I want you back again

I sit very still but I'm rushing  
To the place where once we were touching  
Baby don't you realise that  
The others don't hypnotise me  
They just don't mesmerise me babe  
I want you back  
I want you back again

I sit very still but I'm rushing  
To the place where once we were touching  
Baby don't you realise that  
The others don't hypnotise me  
They just don't mesmerise me babe  
I want you back  
I want you back again  
I want you back again  
I want you back again  
I want you back again  
I want you back again  
I want you back again  
I want you back again  
I want you back again  
I want you back again  
I want you back again  
Don't send me no telegram  
Don't call me on the telephone  
Don't send me no letters no  
Just keep running  
Keep running  
Keep running [repeat and fade]
