I Want You to Fly

Paul McCartney

I Want You To Fly I want you to fly I want you to grow I like you to get back Whatever you lose

I want you to learn What you wanna know I like you to follow The road that you choose

Ooh at the same time I wanna hold on Don't want you to go I like to be near you Whatever you do

I want us to hide (Ooh) I want to let low (Ooh) Doesn't make sense but (Ooh) I wanna be you (Ooh)

I wanna be you (At the) I want to be you (Same) I want to be you (Time) I wanna be you (At) I wanna be you (The) I wanna be you (Same) I (Time)

I want us to hide I want to let low But doens't make sense but I wanna be you

I want you to fly

So the cages open now We take him fly to Rising and falling like snow In the nights

I'm feeling while a windy scene Between my palms I got my hands and the bird Flies out

Och och och och, och och och och Och och och och, och och och och

So the cages open now (Ooh ooh ooh ooh, ooh ooh ooh) We take him fly to Rising and falling like snow In the nights

Rising and falling like snow In the nights
