## **Magic**

## **Paul McCartney**

There must have been magic The night that we met If I hadn't stopped you I`d always regret

A few minutes later You'd have been out that door And I'd have been lonely Forever more Forever more

Oh what made us do it? Under what holy spell? Nature`s mother knew it Only too well

She reached out her fingers To point at the sky Leaving me helpless Not knowing why

And this is the hour
That they turn out the light
Nothing but memories
Burning so bright
Burning so bright

Oh what made us do it? Under what holy spell? Nature`s mother knew it Only too well

There must have been magic The night that we met If I hadn't stopped you I`d always regret

There must have been magic There must have been magic There must have been magic The night that we met
