Wouldn't You Like To Know Me

Paul Stanley

I've been lonely but I feel alright You got another baby, hold him tight, you know You been pushin' and you won't get me tonight I've been your lover, but I'm not your fool You wanna to teach me but I'm not in school, you know You been pushin' and you won't get me tonight

You come a crawlin', but you're much too late You've got the key, but babe, I locked the gate I tried to call you when you were not home Nobody likes to spend the nights alone

Wouldn't you like to know me? And wouldn't you like to show me you care? Wouldn't you like to take me? And wouldn't you like to make me? Whoo yeah

You're good lookin' so you get your way You been lucky, baby, not today, because You been pushin' and you don't get me tonight

You come a crawlin', but you're much too late You've got the key, but babe, I locked the gate I tried to call you when you were not home Nobody likes to spend the nights alone

Wouldn't you like to know me? And wouldn't you like to show me you care? Wouldn't you like to take me? And wouldn't you like to make me? Whoo yeah Lets' go

Wouldn't you like to know me? And wouldn't you like to show me you care? Wouldn't you like to take me? And wouldn't you like to make me? Whoo yeah

Wouldn't you like to know me? And wouldn't you like to show me you care? Wouldn't you like to take me? And wouldn't you like to make me? Whoo yeah

Wouldn't you like to know me? And wouldn't you like to
